REPORT

OF THE

SCHOOL BOARD OF THE SCHOOL DISTRICT OF NEW BOSTON

For the Year ending March 1, 1891.

In presenting our annual report we are glad to be able to say that we think that the schools of this year will compare favorably with those of preceding years. We find an advancement in the number and grade of studies pursued and an increase in attendance. We are sorry to notice an exceedingly large amount of tardiness, and once more appeal to the parents to correct this fault. The average attendance on the whole has been good, as the large number on the roll who have attended one term at least without being absent or tardy will testify.

Under the free text-book law we have been able to supply the scholars with needed books, the benefit of which is apparent in the increased number of pupils now taking several studies who previously took only such as they were compelled to.

Through the generous appropriation of the town, we have been able to furnish more weeks of school than for many previous years, amounting in the aggregate to 317 weeks. We have endeavored to equalize the schools so as to give all scholars 27 weeks, either by schools in the nearest house, or, when more practicable, by furnishing transportation to another house. We have had 20 weeks of high school with an average attendance of nearly 30 scholars. We think this school would compare well with schools of similar grade in the neighboring towns, and the demand for its continuance is manifest in the earnest desire of our larger pupils to attend, and the interest manifested by many of the parents in its prosperity.

While we recognize the superiority of experienced teachers as a rule, we realize that all were once beginners, and in order to keep the supply good, new ones must be added; so we have thought best in some instances to employ those who have not taught before, and in several cases we have retained the same teacher two terms or more.

In the matter of repairs, we have made only such as were necessary for continuing the schools the present year, deeming it unwise to expend more money on worthless buildings. We would renew the suggestions of last year that if the present school system is to continue new houses must be built, as under present location it is practically impossible to give scholars equal advantages, as the expense per scholar is vastly greater in some schools than in others, varying from thirty-four cents per scholar per week in No. 8 primary to seventy cents per week in No. 12. (The expense per scholar per week in each of the schools may be found in the last column of statistical table.) Although such expense cannot be made exactly equal, it can be approximated by consolidating schools.

In view of the fact that this year brings the time when the district may vote on the question of returning to the old district system of schools, and that under that system the practice has been to appropriate the school money according to valuation, your board have thought proper to submit a comparison of the amount each district received at the last division of school money under the old system with the amount they would severally receive on the valuation of last April. The amount required by law to be raised was \$1,414 in 1885; now it is but \$1,288.

Dist.	Amt. in 1885.	Amt. in 1890.	Dist.	Amt. in 1885.	Amt. in 1890.
1.	\$24.10	\$21.44	10.	\$41.53	\$38.09
2.	69.67	70.70	11.	74.49	66.89
3.	37.51	36.40	12.	34.15	31.16
4.	99.12	82.31	13.	80.48	70.98
5.	62.05	60.55	14.	46.94	40.02
6.	55.63	55.73	15.	58.66	60.23
7.	57.13	54.62	16.	102.24	92.58
8.	467.22	409.28	17.	28.33	28.18
9.	74.76	65.80			

In view of the above, we would advise an appropriation as large at least as last year's, whether the present system continues or otherwise.

CHARLES H. SHEDD,
Treasurer of School Board.

FEBRUARY 27, 1891.

We hereby certify that we have examined the foregoing accounts of the school board of New Boston, and find the same correctly cast and properly vouched for.

WILLIAM WOODBURY,
 CLARENCE H. DODGE,
Auditors.

REPORT
OF THE
TRUSTEES OF THE NEW BOSTON
CEMETERY.

Another year of general health and activity closing upon us, in submitting the report of the superintendent herewith you will be surprised to see how many of those advanced in years have been placed in this their last resting place. They have long been identified with every interest of the town, and some whose names are recorded have been more than usually interested in making the cemetery a pleasant and interesting place to visit. That your interest should ever be less than now, that in all its appointments everything should be decent and not repulsive, should be convenient and in good taste, we have no fears, and though these fathers be gathered to their fathers, their children and posterity to follow will ever guard this sacred spot with jealous care.

Blank deeds and record-book have been purchased and we hope those who have deeds will pass them in to be re-recorded that the title may be perfected and may appear on our books. The immense pressure of work in the summer in this vicinity and pressing cares of the trustees individually made it impossible to do all we purposed in grading and in making a good roadway around the old cemetery, but some work was put in in trimming up the grounds and we hope the coming season to perfect some plans we have had before us and get more done than we have for the past year.

NIEL McLANE,
GEORGE A. WASON,
THOMAS R. COCHRAN,
ALFRED M. CAMPBELL,
SOLOMON D. ATWOOD,

Trustees.
